Lyte Solutions may be contraindicated by disease or medication.

Statements made in this flyer are clinical observations and have not been validated statistically.

health equation[®]

3 Solutions

Our Electrolyte Solutions are based on 30 years of clinical research and over 18,000 blood test evaluations by a Medical Doctor.

Lyte Solution *for everyone*

Lyte Cl Solution *especially for the athlete and high cholesterol*

Lyte K Solution *for potassium deficiency*

All 3 specially formulated solutions contain significant concentrations of sodium, chloride, potassium, phosphate, magnesium and sulfate, —plus less than 1mg/ serving of 65 trace elements.

"After several weeks of drinking as much Lyte Solution as I wanted, my fibromyalgia pain decreased by 80%."

Scientist

"I always add Lyte Concentrate to bottled water during air travel. I still feel fresh after many hours of airports and airplanes."

Businesswoman

"I consider Lyte Solution foundational nutrition for all my tired, achey and otherwise toxic patients."

Medical Doctor

"The benefits of Lyte Solution are so obvious-- why don't ALL doctors know about this?"

Patient

"The best response I've ever had with overtrained athletes bar none is with the Lyte Cl Solution. A complete turn around in 12 hours."

Chiropractor and Athlete

"I can party Saturday night and study on Sunday, thanks to Lyte Cl Solution."

Student

Suggested use: 2 teaspoons in 8oz. drinking water, 2-3 times a day
